Hello All You Wonderful People,

The wonderful thing about throw pillow covers is that once that particular holiday is over – you take it off, wash it, and put it away until the next time that you need it. They fold nice and flat so they don't take up much room in your linen closet. All you need is a couple of 14" pillow inserts and you're all set. You change the throw pillow covers and you're set for the next go-round.

Some holidays take many throw pillows laying around to shout the joys of the season and others just need one little spot to bring the holiday or season into focus.

Did you know that storing your paints is much like storing good wine? You need to keep them tip down. This keeps the paint in the tip so they're sealed and keeps the tips moist so you have much less trouble with them. The Paint Racks are the perfect way to do this. (C350 - \$10.95) You can see them on the web site, Ginger's Cameo.com...and while you're there looking at all the good things we offer - go up to the top of the Home page and [click on the Facebook 'like' button.](#)

With wine, you store them so the cork stays moist and keeps the wine fresh and the taste sealed in the bottle.

Just to give you a heads-up – the paints will be going up to \$3.50 apiece on June 1st, 2013. Most of the Accessories will go up about 10% at the same time.

This means all the kits will go up, too.

I had to re-order a lot of things in November and December. These are things that are put together with other things – then packaged to send out to you. I was super shocked at how much the prices had gone up. They went up 10% - 20%. WOW!!

I should have done this January 1st – but I had not told you about it – I like to give you warning when I'm going to do this sort of thing.

Remember – when you order the individual quilt block designs, it's just the design with no quilt block. You have to order the quilt blocks (P601 & P602) separately.

For those of you that are on Facebook, I'm trying to get the 'likes' up to at least 500. This is so that I can offer special deals to those that have 'liked' my page. **Just go to the web site and up at the top of the 'home' page click on the Facebook 'like' button.**

I answer questions and put up new information there. I think you will like it. Let me know if you have any ideas on things that I should talk about there. I appreciate all the help I can get (as usual).

Speaking of the individual quilt blocks – I see that a lot of folks like them being up individually. I've had orders from people that do t-shirts and sweatshirts and only wanted the designs, not the blocks and only wanted certain ones of each quilt.

I, also, have some instructors, like Rachel Fry in Colorado, that have given their people the option of working on different quilts that I have put out in the past with too many to choose from to do them all in one year. That's working out for her and for them (and for us, too).

When you order the individual blocks, all you need to put down is the 'Q' number for that quilt and the individual number for that particular block. i.e.:– Q002-05 - that shows me the quilt with the first part and the individual block with the second part. Then put down how many you want.

In case you haven't noticed – the weather is atrocious. It's just unbelievable – so that's all I'm going to say about it this month.

Okay – I'll type at you again next month.
