Hello All You Wonderful People,

## NEW Paint

Well, it's that time of the year.... the time for the NEW PAINTS. There are six (6) NEW PAINTS at this time. They can be ordered right away.

**155 – Country Pink** This paint is to take the place of Dusty Pink. I'm going for a line of Earth Tones. This will be part of it. This is the light tone for Country Rose.

**157 – Spring Green** I had a lot of people that asked for this to come into the Line – so here it is. It's a great color. You can't have too many greens.

**158 – Yellow Ochre** This is an artist's color. You can use it to mix other colors or use it as it is. This is one of the Earth Tones. It goes with a lot of colors that are already in the Line.

**159 – Blue Spruce** We had to put this color into the line. It's a great Teal color. It will go with blues and greens. This color works as a shadow color with the Country Blues.

**178 – Olive** This is another Earth Tone. It is back in the Line – but it is not quite what was in before. This is a great color to use with 119-Sage.

**179 – Pumpkin** This color could have come in closer to Fall, but we don't have another set of colors coming in until November for the Winter Workshop. I felt that would be too late to really utilize it to its full extent. A great color!

That's it for this time. We'll have six (6) more in November.

I just knew that is what you would want to see first thing. I know that you have been waiting for them – and they are just the colors that we needed to add to the Line at this time. I know you will love using them. This is an earthy set of colors for the most part.

Okay – now for an up-date to the building project.

I'm helping

Something's there!!

It looks like a building is coming!!

It really is moving right along. I just keep thinking about how much still has to be done before the Cameo Facility is up-graded to usable.

I'm finally putting in an Index for the transfers. I called Jean and said, "Help!" She came through as usual with what I asked for, the Index. I may not up-date it every month in your newsletters, so you will have to just write them in until I send you another up-date. Sometimes I don't have enough room to add in an extra page, but every two or three months I promise to put out another one that is up-dated. For those of you that get this by email, you probably know about right clicking to change the cells, and you can up-date your copy as we go.

This Index is set up by month and year since that is the way I put out the transfers. Look in the Index for the transfer number and then check what month and year that it came out. The month and year is in the upper right corner of your transfer pages. I have already started using this and I find it a great time saver.

Now about the new transfers, the T4678- Showy Flowers was originally charted as an 'out-line and pull in' type of transfer. I just couldn't help myself; I had to fill in with the Sparkle Paints.

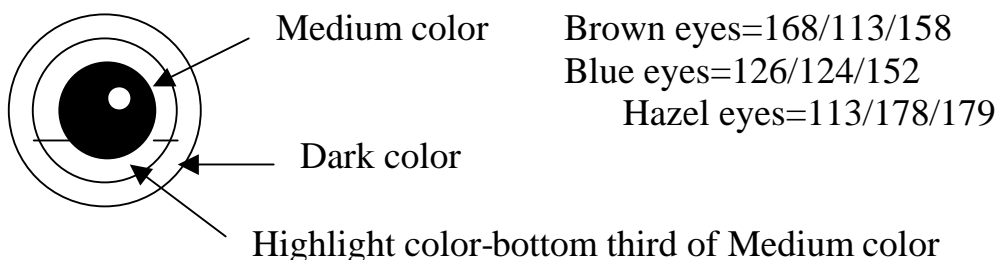

You can see the way it is charted on the transfer page.

Here is what it looks like as an 'out-line and pull-in' picture from Halleen. It looks good either way. This would be a good design for jeans, pillowcases, tablecloths, t-shirts and sweatshirts. I think you will find it to be just an all-around design.

The T4679-Tall Ship is just that. I have wanted this transfer in for a long time. I hope you all like it as well as I do. This was a pre-shaded wall hanging. I think it switched over really well. This will make a great 'guy' gift. Also, it uses one of the new paints in the charting (159).

Thought I would put in some **suggestions on doing eyes**. This is what you do using three colors on the eyes, plus black for the center of the pupil and using white as the dot, or dots, of life to make the eye come alive.

The darkest color is applied to the outside edge of the iris covering one-half of the iris area. The medium color is used to fill in the balance of the iris. You highlight the medium color at the bottom of the eye with the highlight color.
